## Human Rights Preservation

**Human Rights Preservation:** HDO believes that human rights deal with human "expression", "creativity" and conviviality for deciding own density. It looks critically into the socio-economic, political and cultural system, which directly or indirectly influence the life of the suffering humility. HDO's Human Rights Preservation concept strongly considers that poverty and disadvantages stem from the unequal socio-economic and political power. It is rather an unequal participation in making decisions where determines the direction of the society.

### Objectives of human rights preservation:

- To promote participatory democracy at grass level.
- To motivate the grass-root people to establish people oriented decision- making system.
- To educate the grass root people as they can realize the strength of people as the power of development.
- Building peoples awareness of their situation and rights.
- Building peoples organization. Exercising collective action and activity
